

Anouk art

Art with a story

Dutch artist Anouk van Tetering is best known for her perfectly designed artworks staging small or forgotten items. Objects, collected over the years, are the inspiration for beautifully designed art works, whereby the boundaries between art and design completely disappear.

Anouk's international career kicked off after she graduated from the Rietveld Academy. Her pieces have been exhibited at fairs, like Art Miami, Scope New York, Art Plus Shanghai and Art Wynwood.
